

Environmental, Health and Safety Skills Overview

What we do?

EHS Response is a provider of professional environmental, health and safety services to clients from a wide range of organisations. We offer numerous services from designing and implementing management systems to providing training to empower staff.

We offer a high quality service and ensure that we work closely with our customers so that the work produced is tailored exactly to their needs. We have delivered services to large and small companies and have experience in a broad range of industry sectors.

Our Aim

We provide businesses with independent, confidential advice and support on practical ways to increase profits, comply with the law and reduce environmental impact and health and safety risk.

We have had experience of dealing with clients of many sizes from SME's to multinationals in the following sectors:

- Industry and commerce,
- Business support organisations, and
- Training providers.

We have a high level of experience and qualifications in the services that we offer and will provide 'a safe pair of hands' for clients on what can be complex interdisciplinary issues.

As many impacts/risks have long term financial consequences if not managed correctly, we can also help you realise significant financial savings.
